

TECHNICAL DATA SHEET

Hot melt adhesive 103

Art. no. 0890 100 058

P. Qty.: 1

For effective dent removal on different materials and surfaces.

Colour	Black
Length	180 mm
Softening point	92 °C
Min./max. processing temperature	190 to 210 °C
Shelf life from production	24 Month

Application area

Ideal for the automotive industry for effective dent removal on different materials and surfaces by affixing pulling tabs.

Proof of Performance

Notice

Heat occurring during storage (e.g. due to solar radiation) must be avoided due to the changes to the outer shape of the hot melt adhesive this can cause.

The usage instructions are recommendations based on the tests we have conducted and on our experience; carry out your own tests before each application. Due to the large number of applications and storage and processing conditions, we do not assume any liability for a specific application result. Insofar as our free customer service provides technical information or acts as an advisory service, no responsibility is assumed by this service except where the advice or information given falls within the scope of our specified, contractually agreed service or the advisor was acting with deliberate intent. We guarantee the consistent quality of our products. We reserve the right to make technical changes and further develop products. Please observe the technical data sheet!
